Music: Talking Blues (traditional arr. Savitzky)

The time has come, the Walrus said, To talk of many things
Of shoes, and ships, and sealing wax, and cabbages and kings
And why the sea is boiling hot, and whether pigs have wings

And while we're on the subject of impossibility
They say that Steve Savitzky has been making a CD
About computers, hacking folk, and software that is free.

I've heard that, and it may be true, the Carpenter did say
He claims he'll take pre-orders starting on this New Year's Day
A link's up on his website, but there's no form there today.

the website URL —
you know an advertising jingle *has* to have a URL these days —
is thestarport dot com slash
Steve underscore Savitzky (both names capitalized)
Just find the preorder link and click it.
You know how to click, don't you?
You just put your finger on your mouse and go...
